

Manjuan He, Software Engineer, Bilingual Teacher

208-596-7158 | Houston, TX

joyhe520@gmail.com | www.linkedin.com/in/mjhe | <https://github.com/Joyhecoder>

Seeking a position as a Full Stack Junior Software Engineer in October 2022. I am a strong communicator who is eager to take challenges and learn. I am currently in a full-time bootcamp. I am a former lead teacher with a history of optimizing students' learning styles to reach high academic achievement, organizing and communicating data-driven reports to provide resources for parents, and emphasizing students' personal value to obtain both academic and social/personal growth.

SKILLS

By the end of my cohort, I will be able to acquire skills in Python, JavaScript, React, Node, Redux, Express, SQL, MySQL, PostgreSQL, Sequelize, Mongoose, RESTful API, EJS Templating, HTML, CSS, Bootstrap, Material UI, AWS, Git, GitHub, JSON Web Token.

PROJECTS

Where's My Money -<https://github.com/Joyhecoder/Backend-A-Team> September 2022

- See the app: <https://budgetiskey.herokuapp.com/register>
- Back-End web app created by a 4-person development team that allows users to create an account to track their expenses and income and plan for budgets.
- Built with: JavaScript, ExpressJS, EJS, PostgreSQL, Sequelize, Passport, jQuery, Chart.js, HTML, CSS, Bootstrap

Band Website -https://github.com/Joyhecoder/BAND_WEBSITE August 2022

- See the app: <https://blackpinkfanweb.herokuapp.com/>
- Back-End website I created for a band to retrieve all albums, tracklist from a Json database. The website also integrates features for users to leave feedback and online live chat.
- Built with: JavaScript, Node, EJS, Express, Socket.io, HTML, CSS, Bootstrap

Along the Way -<https://github.com/Joyhecoder/front-end-project> August 2022

- See the app: <https://enjoyyourroad.netlify.app/>
- Front-End web app created by a 3-person development team that allows users to find routes for a trip, nearby restaurants along the road and a 3-day weather forecast of the destination place.
- Built with: JavaScript, API, HTML, CSS, Bootstrap

Blackjack -<https://github.com/Joyhecoder/blackjack2021> August 2022

- See the App: <https://blackjack-for-win.netlify.app/>
- Front-End web app I created to allow users to play bet virtually and play blackjack.
- Built with: JavaScript, DOM, HTML, CSS, Bootstrap
